

When you're breathing better, you're sleeping better.

Inspire[®] therapy is a mask-free¹ solution for people with obstructive sleep apnea who have tried and struggled with CPAP.

*This image is not shown to scale.

No mask. No hose. Just sleep.[™]

To learn more about Inspire therapy and view educational videos and resources visit inspiresleep.com/educate or scan the QR code with your mobile phone.

1. ADHERE Registry: Data on File

Inspire is not for everyone. It is a surgically implanted system that is intended to treat obstructive sleep apnea in patients who are not effectively treated by, or able to tolerate CPAP. Talk to your doctor about risks, benefits and expectations associated with Inspire. Risks associated with the surgical implant procedure may include infection and temporary tongue weakness. In rare cases tongue paresis and atrophy may occur. Some patients may require post implant adjustments to the system's settings in order to improve effectiveness and ease any initial discomfort they may experience. Important safety information and product manuals can be found at inspiresleep.com/safety-information/ or call 1-844-OSA-HELP.
